

Download the SmartTub™ app to on your Apple Watch

To add the SmartTub™ app to your Apple Watch, download it on your iPhone first. You will need to sign into your SmartTub™ app on your phone so that you can login on your watch.

1. Open the Apple Watch app on your iPhone. Your watch will need to be setup in order to download apps.
2. Tap the App Store tab and browse for the SmartTub™ app. If an app doesn't automatically install, you might need to manually add it to your Apple Watch.
3. Download app and tap on app from your watch to start using it. It is best to sign in to our phone SmartTub™ app before your watch so that the latest sync data is available on your watch.
