# DISTINCTLY D1®

Our precision engineering is evident in every detail of every hot tub we sculpt, derived from a thirst for knowledge and a love of the latest technology. With over 45 years of pushing the envelope of what a hot tub should be, we have integrated intelligence, utilized the most durable materials, and given you more features, so you get exactly what you need.

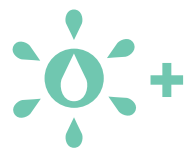

# WATER QUALITY

Founded upon the mindset that your water should look good, smell good and feel good, we developed two unique patented D1® water management systems to enjoy clean\* water. The UltraPure™ PLUS system combines ultraviolet light technology and ozone with dual filtration, and the ClearZone® PRO system utilizes ozone in a mixing chamber to reduce off-gassing.

## ULTRAPURE™ PLUS

Combining UV light and ozone and doubling the square feet of filtration even while your spa is in use, you can sit back, relax, and enjoy your spa. Standard on Amoré Bay® and Reflections® Collection models.

## CLEARZONE® PRO

The oxygen-based system uses ozone to group smaller debris to form larger clusters that can be more easily captured in the filtration process. Optional on @Home® models.

## VISION CARTRIDGE

Optional cartridge provides softer-feeling water when used in combination with any D1® spa model and lasts two months longer than other mineral cartridges.

\*Clean is defined as the removal of microscopic (down to 3 µm level, varies by model) debris from the water. The UltraPure™ Plus System utilizes various technologies to achieve cleanliness. One of them is ozone, which aids in the grouping of smaller debris to form larger clusters that can be more easily captured in the filtration process.

# The Science of **HYDRONOMICS™**

Using the Science of Hydronomics™ - the study of hydrotherapy and ergonomics using more than 100 measurements of the body - D1® spas are engineered to be the perfect fit.

## BIOFORM

The difference is clear the second you sink into the warm, revitalizing water. Our state-of-the-art bioform seats precisely fit each body type, from its height and curves to the placement of each patented, easy-to-adjust jet.

## FLEX THERAPY PILLOW™

The Flex Therapy Pillow™ features exclusive, adjustable neck and shoulder jets. These patented jetted pillows are easy to reposition to just the right height whether you are 5'2" or 6'5".

## ULTRALOUNGE™

Utilizing a no-float design, every UltraLounge™ delivers head-to-toe therapy utilizing precision angles to keep your body in the perfect position to reduce buoyancy so you don't float out of your seat.

## PATENTED ADJUSTABLE JETS

Varying the power of your massage is easy with patented jets featuring an adjustable design that makes it easy to grip and turn underwater.

## DYNAMIC MASSAGE SEQUENCER™

The Dynamic Massage Sequencer™ features individual controls and six preprogrammed massage combinations to target different body zones, giving you the option to customize speed as well as pausing the succession.

## TACTILE THERAPY

Various-sized therapeutic "bumps" have been grouped together at key acupressure points for the arms, hands, wrists, and feet. These bumps stimulate trigger points in these areas, providing you with an acupressure massage.

# ULTRALIFE® SHELL

Exclusive UltraLife® material is engineered with superior resistance to the effects of sunlight, chemicals, and weathering. Its unique, slip-resistant material is unmatched by any other hot tub material. The timeless beauty of softly textured UltraLife® is easily maintained, doesn't require special cleaning solvents, and blends with any décor or color scheme. UltraLife® material has a lifetime warranty and will look like new years after your purchase.

# TERRACINA™ CABINETRY

The natural wood tones of the durable Terracina™ Collection create a hot tub exterior unmatched in beauty that you will enjoy for years to come. Available on Amoré Bay® and @Home® Collections

# SIENA™ CABINETRY

Premium wood grain finish and horizontal profile with optional stainless steel exterior lights create a unique, contemporary design. Available on Reflections® Collections.

## LIQUID FX™

Liquid FX™ incorporates lights and water to engage your senses, with models showcasing one-of-a-kind interchangeable fountains and water features. Standard in the Amoré Bay® and Reflections® Collections.

## CRYSTAL FX™

A relaxing, colorful experience, brilliant underwater jewels of faceted light captivate the soft, luxurious interior to create the perfect mood. Crystal FX™ utilizes long-life LEDs and features eight colors and two dynamic light shows. Optional on @Home® Collections.

SMARTHUB™ CONTROL

Manage major functions in seconds with a large touch screen. Smart touch technology makes it easy to swipe and use even with wet hands. Also compatible with the optional SmartTub® app.

ECHO SWITCH

An exclusive magnetic switch gives you control of your hot tub's major functions without moving your hands out of the warm, comfortable water. Standard on Amoré Bay®.

STATUS LIGHT

Integrated into the outside of your spa, the LED-lit logo quickly communicates the status of your hot tub, indicating whether your hot tub is ready or needs attention such as routine maintenance. Standard in the Amoré Bay® and Reflections® Collections.

Solvatten is a combined portable water treatment and water heating system that has been designed for off-grid household use in the developing world. It is an easy, innovative solution that provides access to clean, hot water to people all over the world. Thanks to its durable design, Solvatten is an affordable and convenient way to get clean, hot water.

By partnering with Solvatten, we will directly contribute to the essential goal of bringing safe, clean and hot water to those who need it the most while creating a more sustainable world.

Throughout the year, Dimension One Spas® will be doing tie-in promotions with Solvatten: for every spa sold during the specified promotional period, Dimension One Spas® will donate one water care unit to Solvatten to be rewarded to a rural village in need.

- Donated **200** water care units in 2022
- Protected our planet from **7 tons** of CO<sub>2</sub> emissions
- Preserved over **1,000** trees
- Gave over **1,100** people access to safe water.

Harnessing the versatility of cellular, the SmartTub® System makes using and maintaining your D1® spa almost effortless. Compatible with your SmartHub™ control, your spa pairs with an app on your smart device or smart home system to customize, monitor, and control your spa.

### Convenience from an App

- Get real-time notifications and reminders
- Track energy usage reports
- Pair with Siri, Alexa, Google Assistant and wearables
- Enjoy new features updated automatically

### Full Control from Anywhere

- Adjust the temperature, jets, and lights
- Set up an automated usage schedule

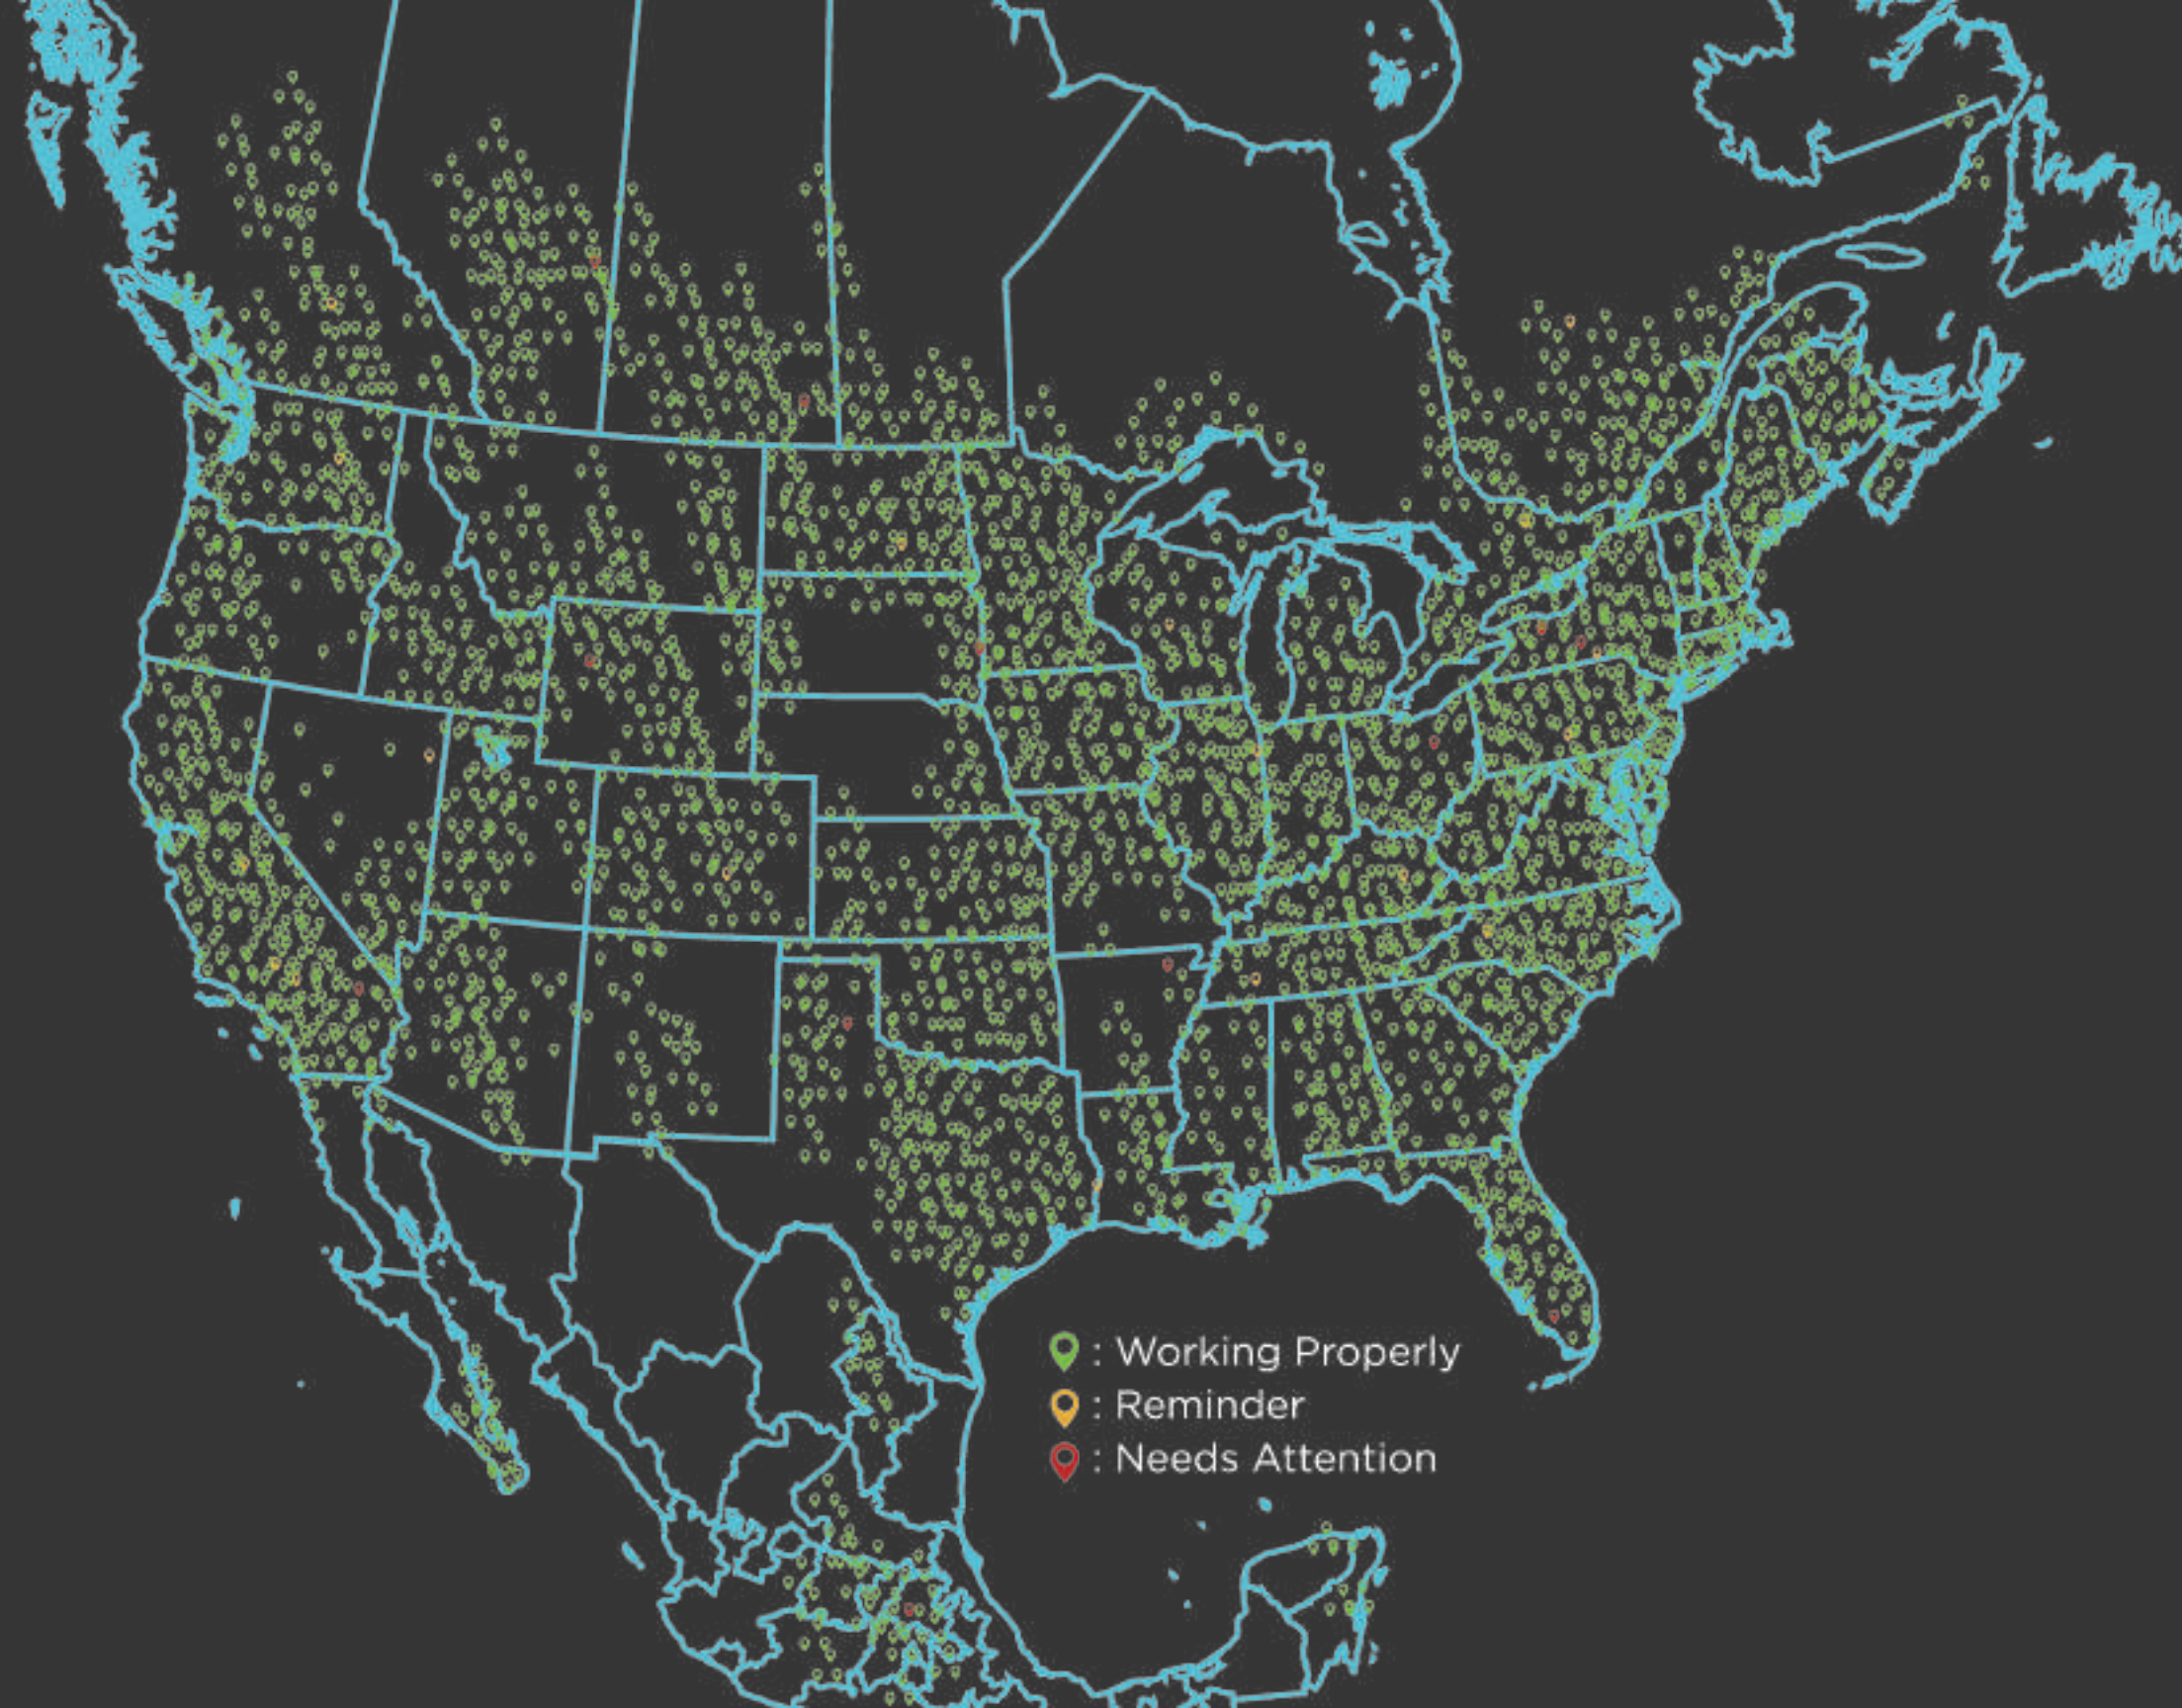

### Peace of Mind When Home or Away

- Automatically alerts your dealer if your hot tub needs attention
- Detect power outages, freezing, and overheating
- Optimize energy savings with industry-first Smart Heat Mode, which learns your usage and lets you control how much energy you use

SmartTub® system uses cellular-based communication and requires cell service from our provider partner in your area. See website for details.

\*Requires subscription beginning in second year of ownership.

The design and creation of the Amoré Bay® spa was inspired by love and the classic heart shape. This spa features seven massage options and also boasts seating to make it easy to move around.
