

# The Ultimate Experience

# REST, RELAX, REJUVENATE

## FREESTYLE MASSAGE

### 1. COMFORT BARRIER FREE

- Multi-level seating.
- Comfortable seating for all users no matter the height or size.
- Allows the users to sit comfortably in any seat.

### 2. HYDROMASSAGE THERAPY JETS

- Exclusive groups of personal hydromassage jets.
- Designed to provide a vigorous yet gentle massage.

### 3. JET PATTERNS

- Are designed in consultation with massage experts.
- Jets work specific muscle groups giving the perfect massage in different zones of the body.

### 4. PERSONALIZATION OF THE MASSAGE

- Customize the massage experience.
- Adjust the power of the massage from every seat.

## CLEAN WATER... FASTER

### WHITE WATER FILTRATION SYSTEM\*

#### 1. WHITEWATER SKIMMER

- Debris is pulled across a skimmer door which traps it inside the filter compartment.
- Spend more time with the family - less time cleaning.

## 2. WHITEWATER FILTRATION

- Over 75 sq ft of filtration working all of the time.
- Ensures your families protection.

## 3. WHITEWATER FILTRATION PUMP

- Turns 100% of the water over in only 20 minutes.
- Cleaner water faster.

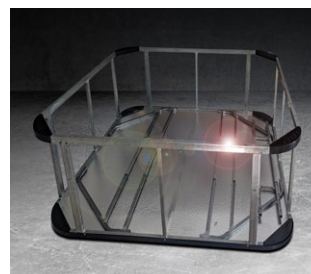

## 4. OPTIONAL PUREWATER SYSTEM

- Proactive system that reduces the amount of chemicals needed to maintain the hot tub.
- Naturally keeps the water clean.
- Harnesses the natural, safe, and effective power of water and light.

# BUILT TO LAST

## 1. EVERLAST POLYMER BASE

- Impervious to nature, moisture, and the elements.

## 2. SURESTEEL FRAME

- Built with a galvanized SureSteel support structure. This frame is guaranteed to never rot, split or peel.
- Extends the life of your hot tub.

## 3. LIFESTYLE SHELL

- 3-layers: acrylic, waterproof, and strengthening fiberglass.
- Built to handle your lifestyle and the elements.

## 5. GREEN GUARD INSULATION SYSTEM

- Mineral wool insulation.
- Traps the waste heat of the motors and plumbing and returns it to the hot tub resulting in increased energy efficiency.
- Delivers superior noise absorption, bacteria prevention, and won't retain or absorb moisture.

## 6. WEATHERSHIELD COVER

- Cover is 74% lighter so it is easier to move than a standard vinyl cover and it is three times stronger

# THE FREESTYLE SWIM SPA

## THIS IS THE IDEAL ALL-AROUND AQUATIC GYM

The Freestyle has a sizeable, obstruction-free, streamlined swim area with a flat, anti-slip floor perfect for vigorous fitness exercises. It is an ideal temperature-controlled training environment. The magnitude of your workout is controlled by the speed of your movements and the velocity of the current. Additionally, the swim spa is an easy and safe environment to exercise in, thanks to the buoyancy of the water.

### 1. OUR PUMP DESIGN\* PRODUCES A STRONG CURRENT

- Equipped with one AquaBoost Pump that produces up to 360 Gallons per minute and one Buoyancy Pump all located under the Freestyle's swim jets.

### 2. EFFECTIVE DESIGN PROVIDES MORE EFFICIENT HYDRAULICS

- Suctions are positioned in the Performance Flow Intakes to eliminate turbulence.
- Oversized intakes permits the return pipes to move more volumes of water.
- The Evergreen pumps use 30% less amperage than any other typical pumps that can be used.

### 3. EZFLO SWIM JETS SLIPSTREAM SWIM JET TECHNOLOGY

- Two EZFLO Swim Jets produce the swim current.
- The oval outer flute design flattens the water flow for a smoother swim.

### 4. JETFLEX SWIM SYSTEM CUSTOMIZABLE CURRENT

- System produces a swim current of 5 kph (3.5 mph) and is fully adjustable by the user.
- Allows for varying water flows when swimming, having fun, or exercising.

### 5. OPENCHANNEL SHELL COMPLETE LOOP SHELL DESIGN

- The shell hips are designed to create an eddy in the seating area.
- Reducing any reflective wave and helps keep the swimmer in the swim lane.
- Hip Jets stabilize the swimmer in the swim lane.
- The Shell design has one of the largest unobstructed swim tanks on the market.

\* The power levels indicated of the pumps are for North America.

# THE IDEAL ALL-SEASON POOL

Engineered to provide a versatile backyard water experience. Ranging from entertaining, relaxing, or exercise. All of your unique needs covered. From our innovative energy-efficient insulation system to our superior 4-inch energy wise hard cover, we have mastered keeping the heat in and the cold out. Our swim spas are engineered to have energy-efficiency, so you can enjoy your swim spa for just pennies a day.

### 1. POLYMER BASE & EVERLAST CABINETRY BUILT TO BE RESILIENT & DEPENDABLE

- The fully sealed polymer base and Everlast cabinet are designed to keep the warm air in and the elements and animals out.
- Manufactured using eco-friendly practices and made from 100% recycled and recyclable material.

### 2. TRIPLE THERMAL SHIELD SYSTEM ENGINEERED TO LOWER ENERGY COSTS

- This System reflects the residual heat of the pumps, shell and plumbing back into the swim spa. Thus, the heater doesn't need to turn on as often, saving you money.

### 3. ECOHEAT EXCHANGE TECHNOLOGY COMPOSITE HEATING

#### ENERGY WISE THERMAL VENTS

- Each pump creates 1.5 kW of waste heat, this technology helps control the temperature of the swim spa without the heater ever coming on.
- The fully adjustable energy wise Thermal Vents maximize energy efficiency for any season and climate.

### 4. ENERGY WISE HARD COVER LOCKS HEAT IN KEEPS THE ELEMENTS OUT

- Is a heavy duty tapered locking safety hard cover.
- Has an insulated baffle in the fold area that seals when the cover is installed.
- Locks on all sides to keep children safe and animals out.
